

BARBARA SGANGA

São Paulo, SP

barbara.sganga04@gmail.com | 11 94536-1365

Professional Summary: Biomedical Sciences undergraduate at the University of São Paulo (USP), with experience in academic research and a clinical research internship at PENSI Institute (Sabará Children's Hospital). Skilled in supporting the conduct and organization of clinical studies and eager to develop a career in Clinical Research within research sites, Contract Research Organizations (CROs) or the pharmaceutical industry.

EDUCATION

- **Bachelor of Science in Biomedical Sciences**
 - At the Institute of Biomedical Sciences - University of São Paulo (ICB-USP)
 - Start date: February 2023
 - Expected graduation: December 2026
-

RESEARCH EXPERIENCE

- **Undergraduate Researcher - FAPESP Scholarship Recipient- Laboratory of Genetics and Molecular Cardiology**
 - Heart Institute, Hospital das Clínicas, University of São Paulo Medical School — INCOR-HC FMUSP
 - February 2024 – June 2026
 - Participation in research projects focused on genetics and molecular cardiology, including:
 - Collection and analysis of laboratory data.
 - Experience with laboratory techniques such as DNA extraction, PCR genotyping, and agarose gel electrophoresis.
 - Experience handling animal models, specifically mice.
 - **Research intern - Functional Neuroanatomy of Pain Laboratory**
 - Institute of Biomedical Sciences — University of São Paulo
 - June 2023- December 2023
 - Participation in research projects focused on pain mechanisms, including:
 - Study of the anatomy and physiology of pain.
 - Study of alternative therapies, such as physical exercise.
-

INTERNSHI EXPERIENCE

- **Internship at Fundação José Luiz Setúbal**
 - Pensi Social
 - September 2025- December 2025
 - Participation in activities within the Strategy department:
 - Bibliographic research and synthesis of evidence to support the Strategy department in topics related to public health and child health.
 - Development of Theory of Change and structuring of indicators (KPIs) for monitoring and evaluating initiatives.
 - Research on benchmark institutions to support the development of materials for the Foundation.
 - Instituto PENSI- Clinical Research
 - January 2026 - Present
 - Participation in sponsored and institutional clinical research activities:
 - Support in the organization and follow-up of regulatory documents.
 - Experience with research protocols, informed consent forms, and participant follow-up workflows.
 - Support in the collection, review, and organization of research data.
 - Participation in routines related to the conduct of clinical studies, with attention to Good Clinical Practice, research ethics, and data confidentiality.
 - Document analysis and support in audit processes, including document review, identification of pending issues, and preparation of review reports.
-

EXTRACURRICULAR ACTIVITIES

- **University Extension Project – Biocientista Mirim**
 - Institute of Biomedical Sciences – University of São Paulo (ICB-USP)
 - March 2023 – December 2024
 - Activities:
 - Promotion of scientific literacy among elementary and secondary school students and teachers.
 - Development of educational materials and participation in science communication activities.
- **Student Representative on the Course Organizing Committee**
 - No Instituto de Ciências Biomédicas – USP
 - March 2024 – January 2026
 - Activities:
 - Collaboration in course development and communication between faculty members, coordination, and students.
- **University Extension Activity – ADHD**
 - Institute of Biomedical Sciences – University of São Paulo (ICB-USP)
 - August 2024 – December 2024
 - Activities:

- Dissemination of information about ADHD to the Youth and Adult Education community
 - Proposal of interactive activities to consolidate knowledge and answer student's questions.
 - **Member of the Academic League of Human Physiology – ICB-USP**
 - April 2024 – November 2024
 - Activities:
 - Study, teaching, and dissemination of information on human physiology from an integrated perspective.
 - **Project Advisor at ICBjr Junior Enterprise – ICB-USP**
 - February 2025 – December 2025
 - Activities:
 - Training activities in organization, teamwork, and leadership.
 - Execution of projects such as microbiological analyses and structuring of institutional and educational websites.
 - Leader of the impact project “Histology Atlas for Color-Blind Students,” approved by the Brazilian Confederation of Junior Enterprises – Brasil Júnior. The project includes an accessibility tool to support the study of histological slides by color-blind students.
 - Participation in state and national junior enterprise events.
-

ADDITIONAL TRAINING

- **Biosafety and Good Laboratory Practices Course – ICB-USP (6 hours)**
 - **Use of Animals in Experimentation Course – ICB-USP (10 hours)**
 - **Ethical Principles and Animal Handling in Research Course, Rodents and Lagomorphs Module – ICB-USP (40 hours)**
 - **University Extension Course, Dissemination Modality: Drugs of Abuse and Pharmacological Treatment of Addiction, Online – ICB-USP (35 hours)**
 - **Storage, Handling, and Disposal of Chemical Products Course – ICB-USP (valid until 2027)**
 - **Introductory Course in Clinical Research – Hospital Oswaldo Cruz**
-

Languages

- **English:** Advanced (speaking, reading and writing)
 - **Spanish:** Intermediate (reading) / Basic (speaking and writing)
